Re: State Fair Master Plan

Dear Commissioners:

On behalf of Mimbres, Planners o Architects, I am pleased to submit the attached "New Mexico State Fair Master Plan". The plan reflects comments made by your Commission and staff during and following our submittal of the draft of this Master Plan at the State Fair Commission meeting on November 20, 1984.

The master planning process that we have followed over the past year has resulted in an orderly guide for the renovation or relocation of the Fairgrounds. You will find that the Master Plan will provide continuity of thought between your Commission and subsequent Commissions. To accomplish this, the plan provides detailed design recommendations within a format that allows flexibility for changing times and circumstances beyond the twenty horizon of this plan.

Again, thank you for your confidence in Mimbres, Planners o Architects. Your Commission, Mr. Anaya and the State Fair staff have provided us with an outstanding experience and, I believe, the State of New Mexico with an outstanding State Fair Master Plan.

Yours truly,

Dennis R. Bianchi, AICP  
Vice President
