New Mexico Livestock Board Rules

- Proof of ownership (NMLB “form 1” inspection certificate) must accompany the animal when traveling out of district and is strongly recommended even in district. This will help assure that all requirements are met well before fair time.
- Brands:
 1. All show cattle must be branded with a New Mexico registered brand; if not that of the brand’s registered owner, a bill-of-sale and a letter of permission from the brand’s owner is required.
 2. Fresh brands are not allowed – the brand must be “peeled and healed”.
 3. A freeze brand does not qualify as a New Mexico registered brand.
 4. Certificates of Brand Exemption are allowed only on registered breeding cattle under that ownership. Exempt cattle must have breed registry tattoo. Steers do not qualify for a Certificate of Brand Exemption.
- All breeding bulls require a negative trichomoniasis test.
- All cattle, steers and sexually intact, 4 months and older, require a negative TB test prior to showing.
 - Sexually intact cattle: within 60 days of any exhibition, including the New Mexico State Fair
 1. If a nursing cow-calf pair, the test will be on the cow.
 2. Accredited TB Free Herd status will be recognized

No copies or faxed copies of TB test charts or health certificates will be accepted unless signed by the veterinarian in blue ink certifying the copy.

This information is provided only as a guide and may not contain all necessary requirements for livestock bound for exhibits and shows. It is extremely important to consult your Livestock Inspector for updated information well ahead of your planned date of transport.

New Mexico has been downgraded in Bovine Tuberculosis Status, being classified as having an increased risk for Bovine Tuberculosis throughout the state. USDA’s, and neighboring states’ - expectation for diligence throughout New Mexico will continue, regardless of the proposed establishment of a Modified Accredited Advanced, or Split State, status. New Mexico must maintain a high level of surveillance in order to (1) demonstrate minimization of the potential for spread of TB, (2) insure buyers are receiving disease free animals, (3) prevent putting out-of-state animals at risk, and (4) preserve the confidence of all states in the stream of commerce that receive New Mexico cattle.

Because of the high level of intermingling of livestock at fairs, all bovine exhibition cattle will be required to show evidence of a negative tuberculosis skin test prior to exhibition. The New Mexico Livestock Board will assist in whatever ways available to help make this process as simple and feasible as possible.
